The world's first certified tablet for Zone 1 / DIV 1 hazardous areas!

An exciting, new explosion-proof tablet that can be safely used in hazardous areas is now available from Spirit Data Capture.

The ecom Tab-Ex® 01 DZ1 is a 4G/LTE Android tablet (based on the rugged Samsung Galaxy Tab Active). It incorporates a unique blend of electronic and mechanical protection and has now been certified for use in Zone 1 and DIV 1 environments (and can therefore also be used in Zone 2 and DIV 2 areas).

The new tablet is ideal for mobile workers in potentially hazardous conditions, including those in the oil and gas, refining, chemical and pharmaceuticals industries.

If you would like to know more, please contact us now on 01928 718800. We can also supply demonstration units.

You can find further details of our other ATEX-accredited solutions on our website: www.spiritdatacapture.co.uk or order now from our [E Shop](#).
