

Press release. 11th September 2018

Spirit is shortlisted for a prestigious MSH award

Spirit Data Capture Limited, the specialist independent mobile enterprise consultancy, has been shortlisted for an award at the 2018 Managed Services and Hosting (MSH) Summit, to be held in London on 19th September. The Summit hosts the first awards of their kind for the managed services sector. Spirit has been nominated for the 'Best Enterprise MSP Project'.

Spirit has developed a unique range of managed service packages that have been designed to meet different business needs. These include a highly personalised service, an end-to-end support package, and access to the company's highly trained mobility experts.

The company's services range from provisioning, installation and training right through to complete end user support. Spirit engages with and supports its customers at all stages of the mobile enterprise lifecycle. One of its key solutions is SOTI's MobiControl, the UK's leading enterprise mobility management (EMM) solution.

Ebbie Khadem, the company's Managing Director, says: "We're delighted and honoured to have been shortlisted for this prestigious award. We've developed a unique and exciting variety of managed services for our clients, which have been very well received. We'll continue to enhance these as new needs arise."

ENDS

Notes for Editors: Spirit Data Capture is an independent consultancy specialising in mobile enterprise solutions. Based in Sutton Weaver, Cheshire, the company has extensive experience of wireless and mobile computing technologies. It is committed to sourcing solutions that will streamline its customers' operations and boost their productivity.

Spirit's capabilities include software application development; hardware (including handheld and wearable devices, mobile printers and wireless infrastructure); mobile device management; wireless network implementation; maintenance; and many other services. Its extensive client base includes organisations in the utilities, field service, transport and logistics, healthcare, government and manufacturing sectors.
