

Press release: 24 June 2004

Launch of Spirit Data Capture

Spirit Data Capture is a new, Cheshire based, independent IT solutions house – which focuses on mobile and data capture technology. The company has a commitment to providing outstanding customer service.

The company will invest in an on-going technology search programme – in order to present clients with the world's best mobile and data capture solutions.

Spirit Data Capture already offers a number of highly innovative products. These include the gotive mobile computing solution, which incorporates voice and data communication in a single, hand held device. The user is provided with a large (hand sized) colour touch screen. GSM/GPRS comes as standard, as well as GPS. There is also an integrated barcode scanner and a user accessible SIM card.

Ebbie Khadem, Managing Director of Spirit Data Capture commented: “We have gathered an outstanding team of mobile and data collection specialists. We are looking forward to establishing the Spirit name in this fast moving marketplace. Our focus is on a strong commitment to exceeding customer expectations.”

Editor's notes

Spirit Data Capture is based in Preston Brook, Cheshire. The company is a totally independent mobile computing and data capture house, with in-depth knowledge of the latest wireless and mobile computing technologies which boost productivity and profitability. Its services include planning, design and development, implementation, and support.
