

# Software Developer

**Salary:** Negotiable, dependent upon experience

**Job type:** Full-time, permanent

**Location:** Sutton Weaver, Cheshire

Spirit is an established and expanding IT company that provides rugged mobile data capture solutions for large blue-chip clients. We aim to attract people with fresh, creative and challenging ideas, and to develop their talents further. For more information, visit [www.spiritdatacapture.co.uk](http://www.spiritdatacapture.co.uk).

## The Role

You'll be working with seven other Developers, developing systems for the mobile workforces of high-profile customers. This includes an integral role in the Software Solutions team: you will use your expertise in software development to drive and implement new ideas and concepts in our business. You'll work to detailed customer specifications provided by our Business Analysts. You'll play an important role in the design, implementation and release of Spirit's off-the-shelf software products and in the creation of client-specific bespoke solutions. Meanwhile, you'll develop and maintain a high level of product and technical knowledge in areas that support this role.

## Professional requirements

Ideally, you'll have at least three years' professional experience in a relevant industry, with expertise in the following software development areas:

- Microsoft C# and the Visual Studio 2008/2010/2012 IDE/ and Microsoft C#/Microsoft .NET.
- MVC 4 development. Javascript. RESTful and SOAP/XML web services. Microsoft SQL Server.
- IOC / dependency injection (preferably Windsor).
- Design patterns: N-Tier, MVC 4+, MVVM. SOLID design principles.
- Software testing and automated test suites in a controlled software development environment.

The following experience is desirable but not essential:

- Xamarin smartphone development in C# using xaml
- Cordova/Phonegap, HTML 5 development
- Entity Framework / ORM. Service Stack, WCF

You should also be able to:

- Use core applications (Access, Excel, Word, Outlook, Visio, MS Project)
- Demonstrate a knowledge of source code management systems/processes

## Personal requirements

- A professional attitude and a process-oriented, high-quality approach to your work.
- A flexible 'can do' attitude, good organisational skills and a sense of pride in the job.
- The ability to assist and mentor junior developers.
- Excellent communications skills and the ability to work independently or in a team.

This post is based in our Sutton Weaver office, but might involve some travel, so we recommend that you have your own transport. Please email your application (including a covering letter and cv) to [samantha.rhodes@spiritdatacapture.co.uk](mailto:samantha.rhodes@spiritdatacapture.co.uk).

Spirit is ISO9001:2008 accredited and is an Equal Opportunities Employer. Proof of eligibility to work in the UK is required.

**STRICTLY NO AGENCIES OR TELEPHONE CALLS, PLEASE.**
